Mail Security

Advanced
Threat Defense

Protect your users and their email, the most exploited threat vector. ESET Mail Security solutions make users' lives much easier by preventing malware and spam from ever reaching their mailbox. The solution includes advanced threat defense technology, preventing new, never-before-seen threat types, and ransomware. Security products are all managed via a console that can be deployed on the cloud or on-premises.

HOW YOUR ORGANIZATION WILL BENEFIT

- Improved protection against ransomware and zero-day threats via cloud-based sandboxing technology.
- Protection against disruption caused by email-based attacks and malware.
- Easily accessible ESET PROTECT Cloud console improves the TCO of security management.
- Single-pane-of-glass remote management for visibility of threats, users and quarantined items.

CAPABILITIES

ADVANCED THREAT DEFENSE WITH CLOUD SANDBOXING TO PREVENT RANSOMWARE

ESET LiveGuard Advanced provides proactive protection against new, never-before-seen threats by executing all submitted suspicious samples in an isolated and powerful cloud sandbox environment, in order to evaluate their behavior using threat intelligence feeds, ESET's multiple internal tools for static and dynamic analysis, and reputation data.

- Advanced unpacking & scanning
- Cutting-edge machine learning
- In-depth behavioral analysis
- Cloud sandboxing

CONSOLE—ESET'S UNIFIED PLATFORM INTERFACE

ESET PROTECT is a cloud-based or on-prem multifunctional remote network security management tool for ESET business security products across all operating systems. It enables one-click security deployment and the cloud console gives you network visibility without the need to buy or maintain additional hardware, reducing total cost of ownership.

- Seamless setup and deployment
- Cloud deployment does not require additional hardware or software
- Single point of network security management
- Saves time with automated tasks

LIMIT THE ORGANIZATION'S EXPOSURE TO EMAIL-BASED ATTACKS

ESET Mail Security provides an additional layer of defense to prevent spam and malware from ever reaching users' mailboxes. The solution uses ESET's proprietary antispam, anti-phishing and host-server protection technology, combining machine learning, big data and human expertise into one, award-winning mail security platform.

- Robust quarantine management
- Multilayered technology filters spam and malware
- Anti-phishing protection

About ESET

WHEN TECHNOLOGY ENABLES PROGRESS, ESET® IS HERE TO PROTECT IT.

ESET brings over 30 years of technology-driven innovation and provides the most advanced cybersecurity solutions on the market. Our modern endpoint protection is powered by unique ESET LiveSense® multilayered security technologies, combined with the continuous use of machine learning and cloud computing. Backed by the world's best threat intelligence and research, ESET products offer the perfect balance of prevention, detection and response capabilities. With high usability and unparalleled speed, we are dedicated to protecting the progress of our customers, ensuring maximum protection.
