Customer Experience

Overall experience with QRadar SIEM

How helpful reviews are selected

● FAVORABLE REVIEW

5.0 ★★★★★ December 8, 2022

Good SIEM Soltuion with Great features and it keeps on updating.

QRadar is one of the best SIEM solution I have ever worked. First of all, The deployment of the solution is quite easy compared with other SIEM solutions. Integration of Flows in addition the events makes it unique from other SIEM solutions. Integration of log sources with the QRadar is really easy and the current versions have DSM editor feature, which makes us easy to write ...

● CRITICAL REVIEW

3.0 ★★★☆☆ October 10, 2022

IBM Qradar SIEM- Once way ahead of its time.

I have worked on Qradar for more than 6 years now , Since the inception it has been one extremely user friendly application which helps the analysts have fundamental understanding of the SIEM model and architecture. Be its stand alone or distributed architecture, IBM Qradar makes it very easy to understand it push-pull mechanism , log source agents configuration , log management ...

Likes and dislikes about QRadar SIEM

● LIKES

Performance of the QRadar is goodIntegration mechanism is very good where we can integrate any type of log sourcesFlows are unique thing which highlights qradar from rest other solutions in the market.

December 8, 2022

● DISLIKES

1. While there is always an option to customize the search but one can not put OR condition while using manual filters but in custom AQL (Ariel Query Language)which becomes a tool limitation at some stand point.2. Adding the option to attach the notes in Qradar offenses also is one tool limitation, ofcourse an analyst can document his/her analysis under notes section but ...

QRadar On Cloud

Reviewer Function: IT Company Size: 250M - 500M USD Industry: Manufacturing Industry

I have been pleased with QRadar, we use the cloud version of the software and it has been surprisingly easy to configure and get online. IBM helped us create an onsite virtual machine to point logs to and past that they handled the rest. For servers it is a ...

IBM Qradar lacks vision for the future with poor support for current features

IBM Qradar lacks vision for the future with poor support for current features.

Reviewer Function: IT Security and Risk Management Company Size: 500M - 1B USD Industry: Miscellaneous Industry

Qradar is an intelligent SIEM with the ability to correlate disparate security events enhancing the ability to identify threats. The underlying technology is proven and solid. There is a bit of tuning involved as with any SIEM. The user interface is long in the ...

Qradar SIEM

Reviewer Function: IT Security and Risk Management Company Size: 500M - 1B USD Industry: IT Services Industry

Having used Qradar for around 5 years now, I find the way this product does things quite intuitive and easy to grasp for beginners. The product received regular app and content updates to parsers (DSM's). Any challenges faced with the administration of ...

QRadar SIEM-A top class solution

Reviewer Function: Procurement Company Size: 500M - 1B USD Industry: Energy and Utilities Industry

SIEM is a very tricky solution, which takes time and patience to be implemented. having said that, we have had a fair share of fortune with our siem implementation. the deployment took some time and maturity is still going on, but we have seen some ...

Best SIEM solution with realtime log collection

Reviewer Function: Management / Business Consulting Company Size: 3B - 10B USD Industry: Telecommunication Industry

We chose this SIEM solution as its OnPrem and we can have the logs collected and stored locally. The realtime log collection and reporting is good and we have integrated with almost all the applications and servers.

Nice and powerful SIEM software.

Reviewer Function: IT Company Size: <50M USD Industry: Banking Industry

In general, it's a very good SIEM software. It allows you to correlate events with possible cyber attacks or viruses. If configured well, it allows you to keep an eye on your entire infrastructure and protect it from malicious attackers.

QRadar review after 6 years of usage

Reviewer Function: Data and Analytics Company Size: 500M - 1B USD Industry: Telecommunication Industry

Complete and quick threat detection. Our security team implemented this product easily, after that instantly made use of it. Cloud, network, endpoint use cases happened meanwhile. After a free period, it became a bit pricey, so no small or mid-sized ...
